

Pro Algaen Omega™

A 21st Century Marine Nutraceutical

With the incidence of disease increasing and drug effectiveness decreasing, there is only one place left to find the super-nutrition necessary for optimal health-*the depths of the sea*.

Scientific research has shown that every element necessary for a healthy life is present in seawater. In fact, because seawater and healthy human blood share an identical chemical constituency, the human body can easily assimilate marine nutrient products. Scientists have noted this phenomenon in their study of the Japanese diet, in which marine plants and fish have been staples for centuries. It's no surprise that the Japanese exhibit the longest life expectancy of all people on earth.

Guided by this research, VisionQuest has traveled to Norway to develop a potent marine nutraceutical called **Pro Algaen Omega™**.

Pro Algaen Omega is a comprehensive marine nutritional supplement which contains innumerable vitamins, minerals, trace minerals, amino acids, enzymes, essential lipids as well as a potent antioxidant (substances known for their ability to defend the body against free-radicals), giving your body a complete nutritional foundation for better health*.

ADDITIONAL BENEFITS:

- Marine nutritionals are more easily assimilated than other forms nutritional supplementation.
- Marine plants are a rich untapped natural resource and are richer in nutrients, trace elements, proteins, and natural fibers than plants grown on land.
- The arctic waters of Western Norway are non-polluted and constantly renewed of vital plant nutrients by the waters of the gulf-stream.
- Electromagnetically balanced, using cutting-edge technology, to ensure purity of content and optimal effectiveness.

INGREDIENTS:

- Virgin Norwegian Omega-3 Salmon Oil - a superior-grade omega-3 concentrate specific for the cardiovascular system
- Marine Plants - (Fucus and laminaria algae plants) a rich source of all-natural vitamins, minerals, and trace minerals
- Alginate - (Norwegian kelp concentrate) a purified marine plant carbohydrate extract that detoxifies the body of heavy metals and radioactive substances
- Fish Protein Concentrate - one of nature's richest sources of purified proteins
- Astaxanthin - A specialized group of Carotenoids found in fish, crustaceans, certain plants and algae which, are known for their superior antioxidative properties.

RECOMMENDED DIETARY ALLOWANCES (RDA)

RDA's are a set of nutritional standards established by the committee on dietary allowances. The RDA value represents the average daily intake of a laboratory formulated nutrient considered adequate to meet the minimal nutritional needs of the average healthy individual. Note: Only a select few nutrients are given an RDA.

Contrary to laboratory formulated supplements, marine nutritionals are fully absorbed by the body. Ranking marine biologists maintain that this increased absorption known as the Transfer Factor, makes RDA comparisons obsolete.

*These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

A 21st Century Marine Nutraceutical

DIRECTIONS FOR USE

As a dietary supplement: Adults and children 12 years of age or older take 1 capsule before each meal (3 per day).

Each 550 mg capsule contains:

INGREDIENTS

Salmon Oil (Omega 3) 200 mg

Marine Plants 100 mg

Sodium Alginate (Kelp Concentrate) 100 mg

Norwegian Fish Protein Concentrate 100 mg

Astaxanthin (Anti-oxidant) 50 mg

PRODUCT SPECIFICATION

VITAMINS

Ascorbic acid, Biotin, B12, Carotene, Folic acid, Folinic acid, Niacin, Riboflavin, Thiamin, Tocopherols, Pantothenic acid, Pyridoxine, B6, Vitamin E

MINERALS

Calcium, Iodine, Iron, Magnesium, Phosphorus, Potassium, Selenium, Zinc

ESSENTIAL MAJOR ELEMENTS

Nitrogen, Phosphorus, Potassium, Calcium, Sulphur, Magnesium, Chlorine, Sodium

ESSENTIAL TRACE ELEMENTS

Iodine, Copper, Iron, Magnesium, Zinc, Boron, Molybdenum, Arsenic, Aluminum, Antimony, Barium, Bromine, Cadmium, Chromium, Cobalt, Fluorine, Lead, Mercury, Nickel, Selenium, Silicon, Strontium, Tin, Tungsten, Vanadium

AMINO ACIDS

Aspartic acid, Glutamic acid, Hydroxy proline, Serine, Glycine, Histidine, Arginine, Threonine, Alanine, Proline, Tyrosine, Valine, Methionine, Isoleucine, Leucine, Phenylalanine, Lysine, Tryptophan

POLYUNSATURATED OMEGA 3

C-18 (Linoleic acid), C-20 (EPA), C-22 (DHA); Not less than 70% total Omega 3

ASTAXANTHIN

A marine anti-oxidant estimated by reputable marine biologists to be 100 times the strength of Vitamin E.

ITEM CODE: #3100 (100 capsules)
